

# mitigation bill review

Sedgwick's highly knowledgeable and experienced restoration professionals can aid in claims oversight and auditing on behalf of insurance carriers and clients. It is our job to ensure mitigation charges are fair and accurate based on the complexity of each loss and standard industry/regional pricing – and we make an impact on 90% of the files reviewed on behalf of clients.

## Manage losses, reduce claim leakage

Sedgwick's experts audit losses involving water, asbestos abatement, mold remediation, trauma cleanup and fire, including post-catastrophic events. We focus on the accuracy of the mitigation contractors' charges as part of a loss adjustment and/or claim for damages review process.

## Let us support the accuracy and efficiency of your repair process

- We identify leakage on **over 90%** of assignments.
- The average claim leakage found by our team from mitigation services' scoping errors and overbilling is **21%**.
- In 36 months, Sedgwick's auditors recovered **\$12.54 million** in leakage across 46 states (averaging \$1,479/file).
- Our auditors reach the final agreement on scope of work with mitigation vendors **90%** of the time. All revised documentation is forwarded to the carrier along with a complete report.

## Exceptional return on investment

Our return on investment (ROI) figures speak for themselves. For every \$10 in audit expense from 2015-2017, carriers saw \$77.80 returned – a **778% ROI**.
