

The restoration and repair specialists delivering high quality, best value, guaranteed, restoration services and building repairs.

Did you know?

- We've been trading for over 15 years
- We've developed an award-winning wet perils restoration and repair solution, which reduces disruption to your customers and saves you money
- We provide a national solution for the restoration of buildings and contents, following fire or water damage
- We have a range of technical solutions for subsidence repairs including ground treatment works, mini and driven piling
- We have a dedicated design service providing contractor support and obtaining all permissions, which might be needed before repairs can commence
- Oriel repairs are covered by a three-year materials and workmanship guarantee giving your customers additional peace-of-mind
- Our Service Centre is manned round the clock throughout the year, so we're always here to take your instructions and support your customers
- We work directly for insurers, their chosen validation companies or adjusters, and have established a specialist team to validate contractor costs and scopes
- We have dedicated Risk and Compliance and Health and Safety Managers who protect you and your customers
- Oriel's Completion Services Guarantee provides financial protection against contractor failures
- We have a dedicated supply chain team who help contractors deliver repairs within our service standards
- We have a team of chartered professionals, including quantity surveyors, building surveyors, construction managers and structural engineers, on hand to support complex and technical work
- This year we will complete 12,000 projects, the smallest costing £100 and largest £1.5m
