

Global solutions.
Local expertise.

ENGINEERING CAPABILITY

Our team of experienced, dedicated construction and liability adjusters and forensic accountants offers unparalleled technical expertise in construction claims. Our experts provide technical and complex loss adjusting services for insurers, captives, reinsurers and corporate clients.

Our team offers expertise in the following types of construction claims:

- Commercial property
- Construction liability
- Construction professional indemnity
- Contract works (property)
- Delay in start-up/advanced loss of profits

Our capability

- **Commercial property** – petrochemical, pharmaceutical, airports and stadiums
- **Engineering** – water treatment and process plants
- **Infrastructure** – dams, tunnels, pipelines, public-private partnerships, roads, railways, bridges and ports
- **Machinery breakdown** – machinery, plant, boilers and pressure vessels

- **Mining, energy and power** – EPC (Engineering, Procurement and Construction) contracts, gas and wind turbines, desalination and power plants, gas and oil pipelines, long wall and open cut mining

Industry experience

Our team encompasses multi-disciplined experts with experience in a diverse range of industry sectors ensuring our customers benefit from our wider knowledge.

Collectively, our team has experience working with:

- Bridges
- Building contractors
- Historic buildings
- Major roadways
- Oil refineries
- Property developers
- Tunnels and railways

Our approach

The right team – Each member of our expert team of technical loss adjusters, engineers, surveyors and liability specialists come from a diverse set of construction backgrounds enabling them to provide practical advice and industry leading solutions to you and your clients.

Managing costs – With our clients, their customers and technical staff, we develop practical solutions that enable businesses to safely resume operations quickly while containing claims spent and costs.

Responsiveness – With the support of Sedgwick's regional and global network spanning 65 countries, we are able to rapidly respond to any loss situation, assist in loss mitigation, identify critical issues and drive the business recovery process.

Proactive loss management - Whatever the circumstance of the loss, our proactive and collaborative approach considers all parties involved with one common goal –the successful resolution of the claim in the shortest time frame possible.

Client focus – Our success is based on understanding our clients' needs and meeting them consistently and seamlessly.

Integrity and trust – These are essential elements of our relationships, giving our clients confidence that when they use Sedgwick, they have the right team for the job.
