MCL Global division

Engineering

From small building developments, oil refineries, bridges, tunnels, railways and other critical infrastructure projects, to the construction of iconic buildings around the world, our expert team has the strength and stability to become your independent expert on construction claims.

Our team of experienced, dedicated construction and liability adjusters and forensic accountants offers unparalleled technical expertise in construction claims. Our experts provide technical and complex loss adjusting services for insurers, captives, reinsurers and corporate clients.

Our team offers expertise in the following types of construction claims:

- Commercial property
- Construction liability
- Construction professional indemnity
- Contract works (property)
- Delay in start-up/advanced loss of profits

Our capability

- **Commercial property** – petrochemical, pharmaceutical, airports and stadia
- **Engineering** – water treatment and process plants
- **Infrastructure** – dams, tunnels, pipelines, public-private partnerships, roads, railways, bridges and ports
- **Machinery breakdown** – machinery, plant, boilers and pressure vessels
- **Mining, energy and power** – EPC (Engineering, Procurement and Construction) contracts, gas and wind turbines, desalination and power plants, gas and oil pipelines, long wall and open cut mining

Industry experience

Our team encompasses multi-disciplined experts with experience in a diverse range of industry sectors ensuring our customers benefit from our wider knowledge. Collectively, our team has experience working with:

- Bridges
- Building contractors
- Historic buildings
- Major roadways
- Oil refineries
- Property developers
- Tunnels and railways

Our approach

The right team – Each member of our expert team of technical loss adjusters, engineers, surveyors and liability specialists come from a diverse set of construction backgrounds enabling them to provide practical advice and industry leading solutions to you and your clients.

Managing costs – With our clients, their customers and technical staff, we develop practical solutions that enable businesses to safely resume operations quickly while containing claims spent and costs.

Responsiveness – With the support of Sedgwick's regional and global network spanning 65 countries, we are able to rapidly respond to any loss situation, assist in loss mitigation, identify critical issues and drive the business recovery process.

Proactive loss management – Whatever the circumstance of the loss, our proactive and collaborative approach considers all parties involved with one common goal – the successful resolution of the claim in the shortest time frame possible.

Client focus – Our success is based on understanding our clients' needs and meeting them consistently and seamlessly.

Integrity and trust – These are essential elements of our relationships, giving our clients confidence that when they use Sedgwick they have the right team for the job.

Senior Adjuster

Melbourne

T +61 3 9684 3087
M +61 414 934 070
E glen.crawford@au.sedgwick.com

Glen joined legacy Cunningham Lindsey in January 2015 as a senior adjuster specialising in engineering claims.

As a qualified mechanical engineer with more than 20 years' industry design/project experience, he has held service engineering and engineering design positions in related earthmoving and automotive disciplines.

Glen's expertise includes problem solving, engineering failure mode analysis, critical thinking and robust design engineering.

Prior to joining legacy Cunningham Lindsey, Glen spent 14 years working for one of the world's largest multi-national automotive organisations, and four years working for a leading multi-national machinery and engine manufacturer.

John Derbyshire

Adjuster

Hobart

T +61 3 6224 1766
M +61 418 186 524
E john.derbyshire@au.sedgwick.com

John has extensive technical electro-mechanical engineering experience, having spent over 20 years working with the Royal Air Force and the Royal Navy acting as an aircraft maintenance engineer (avionics and mechanical).

His experience over this time includes working on a heavy maintenance unit and on search and rescue duties. Outside of the military, John has managed a drainage engineering team and worked as a field service technician.

In 2013, John immigrated to Australia where he began his career in loss adjusting specialising in technical engineering and machinery breakdown claims. He joined legacy Cunningham Lindsey's Major and Complex Loss Engineering team in January 2015.

E mark.thompson@au.sedgwick.com

Property

For major and complex property losses, we have Australia's most experienced chartered loss adjusters and industry-recognised experts. Strategically located throughout Australia, our MCL experts provide a rapid response, assist in loss mitigation, identify critical issues and drive the recovery process.

Liability

Our liability team provides solutions to a variety of customer and third-party issues. Our services range from brief factual enquiries and task assignments to full adjustments involving all types of liability claims, including complex professional indemnity or product liability matters.

Construction and engineering

From small building developments, oil refineries, bridges, tunnels, railways and other critical infrastructure projects through to the construction of iconic buildings around the world; our expert team has the strength and stability to become your independent expert on construction and engineering claims.

Catastrophe management

With a network of 43 branches throughout Australia and a global footprint spanning more than 65 countries, we have the size, experience and capability to provide the human resources, logistical solutions and supporting systems for service excellence in any catastrophic environment.

Marine

Our marine team provide specialist services in all marine related fields. By engaging only qualified and experienced seafarers and surveyors with years of "hands-on experience", our national network of marine specialists aim to provide the most capable marine claims and risk services.

Forensic accounting

Our highly qualified team of accountants, valuation specialists and fraud examiners specialise in business interruption and financial losses. Our experts develop claim resolution and settlement strategies that avoid disputes and reduce settlement times and costs.

Mining and resources

For mining, energy and power claims, our team of technical loss adjusters, engineers, surveyors and forensic accountants is experienced in implementing solutions that assist with loss mitigation and ensure that production is safely and quickly resumed.

Global solutions.
Local expertise.
